# SPONSORSHIP INFORMATION

## INTRODUCTION

The **International Academy Of Ceramic Implantology** (IAOCI) is the first professional organization built around the idea that ceramic dental implants should be and will become the standard of care for teeth replacement. As a comprehensive resource for patients and dental health professionals, the [iaoci.com](http://iaoci.com) website provides the latest research, news, and articles on the topics of ceramic dental implants, zirconia and zirconium implants, zirconium oxide, and metal-free dental implants of all kinds.

In the past decade, IAOCI has organized numerous conferences and symposia around the globe. For the second time, the conference will be held in Dubai (UAE) which provides a state-of-the-art infrastructure and is ranked in both the "Top 10" of the most visited and safest cities in the world.

The **Dubai Ceramic Implant Conference (DCIC 2.0)** will be held on Thursday and Friday, 25 and 26 April 2024. The first day will be held in an IMAX Theatre which ensures crystal-clear laser projection of the speaker presentations. The IMAX Theatre has 350 comfortable seats with generous leg space, and it is integrated in the Mall of the Emirates, one of Dubai's largest shopping malls. It has direct access to two five-star hotels (Sheraton and Kempinski), the Dubai metro and a large complimentary car park. The industry workshops will be held on the second day in modern day-light conference rooms at the adjacent Sheraton Hotel Mall of the Emirates.
